BA Boss V8 in to EB Falcon??? - Ford Modifications Website. After a quick measure of the engine bay and a phone call to where the engine is being stored measurements look ok with the exception of the width. engine is apparently 800mm wide and the gap between the suspension towers is only 790. so close. i will have to confirm this by measuring the engine myself to check.

The engine itself is a built SOHC AU-spec four-litre with a custom intake and exhaust. The turbo is a massive GT42 and the engine runs on E85 with a Haltech ECU controlling the show. Until recently the car ran a manual transmission, but Michael has now switched to a transbraked Powerglide, and that is sure to see the quarter-mile times tumble.
