Deer: Predation or Starvation - Hazleton Area High School

Deer: Predation or Starvation? Shannan Muskopf June 7, 2018 This activity asks students to calculate the population change (births - deaths) and then graph the number of deer and the number of wolves. An introductory paragraph describes a situation where deer were overpopulated and were in danger of starvation due to lack of food.

Deer: Predation or Starvation? - biologycorner.com

It was hoped that natural predation would keep the deer population from becoming too large and also increase the deer quality (or health), as predators often eliminate the weaker members of the

herd. ... Answer the analysis questions and conclusion on your activity sheet. ... Deer: Predation or Starvation ...
