satellite truck is a mobile communications satellite earth station, typically mounted on a truck chassis as a platform. Employed in remote television broadcasts, satellite trucks transmit video signals back to studios or production facilities for editing and broadcast. Satellite trucks usually travel with a production truck, which contains video cameras, sound equipment and a crew.

Satellite truck - Wikipedia

An engine control unit (ECU), also commonly called an engine control module (ECM), is a type of electronic control unit that controls a series of actuators on an internal combustion engine to ensure optimal engine performance. It does this by reading values from a multitude of sensors within the engine bay, interpreting the data using multidimensional performance maps (called lookup tables ...
