If the period is one month, then the units for the interest rate must be 1/month. The calculation of the interest rate for a different time unit is simply done by using the unit conversion factor for the time units.

### **Notes on Engineering Economic Analysis**

An engineering economic analysis is a breakdown of the various options for an engineering project based on its overall costs. These reports allow companies to decide which option works best from a profit standpoint before they begin the project. Commonly, an engineering economic analysis looks at a project from two basic directions: the physical costs, such as materials and labor, and the time ...
