ASCOT is a real-time interactive simulation tool that easily manages the entire battlespace from single ship Close Air Support (CAS) missions to multi-axis, multi-ship Special Operations.

### **Battlespace Modeling and Simulation - ASCOT - PLEXSYS**

A train simulator (also railroad simulator or railway simulator) is a computer based simulation of rail transport operations. They are generally large complicated software packages modeling a 3D virtual reality world implemented both as commercial trainers, and consumer computer game software with 'play modes' which lets the user interact by stepping inside the virtual world.

Need More Realistic Security and Emergency Management Training, Exercises or Plan Validation? ESI Can Provide Training, Exercise Design, and Evaluation Services using real-life situations, enhanced through the use of dynamic simulation injects

### **Emergency Solutions International - "Through Training We ...**

ATS is a leader in training and exercise simulations and simulation technology for emergency response and military training to develop skills to handle natural and man-made emergency situations as well as a full spectrum of defense related operations.

### **Applied Training Solutions - ATS**

Capsim develops business simulations and simulation-based assessments that measure and develop the critical business skills needed for career success.

### **Business Simulation Games to Develop Key Career Skills ...**

The term military simulation can cover a wide spectrum of activities, ranging from full-scale field-exercises, to abstract computerized models that can proceed with little or no human involvement—such as the Rand Strategy Assessment Center (RSAC).. As a general scientific principle, the most reliable data comes from actual observation and the most reliable theories depend on it.
