Sensors & Modules Navistar International DT466 Diesel Engine

Explained like this... Hot rad bakes sap etc into the fins. Usually using blower to clean up, extra fine debris clings to sap etc. Rain and road splash dampen all the crap again and turns it into "concrete". Hot wash for extended period loosens up and removes the crap and having the engine running, you can watch the temp drop.

Intl. 4300 Dt466 Overheating | The BuzzBoard

The International DT466 engine is a 7.6-liter truck engine used in school buses, farm equipment, dump trucks and construction equipment. It also is utilized in the International CXT, a pickup truck built on the International 20-ton hauler platform. Over one million DT466 engines have been produced. The DT466 is a turbocharged diesel.
