High-back booster seats have back and head supports and usually have seat belt guides to help position the vehicle belt across your child's shoulder and lap.. This is the best next step for children who have outgrown a traditional harnessed seat. The extra head & neck support is good for children who still fall asleep in the car and for longer road trips.

Q1: Why should I have my child in a child restraint? Why do I need a seatbelt? Motor vehicle crashes are the #1 killer of children from ages 1 to 14.

Child Carseat Safety FAQ - Car-Safety.Org

This list does not contain recalls that are more than 10 years old. (Earlier recalls may be viewed by using the options available on the Child Seat Recalls Search page.). Manufacturers of newer child seats provide "expiration" dates for their seats that typically range from six to eight years from the date it was manufactured.

Search for a Child Restraint Recall | Safercar.gov | NHTSA

Cheap baby car seats won't break your budget, but they also won't come with all of the bells and whistles you might find in a luxury model. They may not have a leather handle or a toy bar, for instance. Instead, these baby safety seats will run almost half of the price of some of the more expensive ones.
