IEC MB Hematocrit Centrifuge Demo

Centrifuges. A Centrifuge is a piece of equipment that has a rapidly rotating container that applies centrifugal force to its contents. In a laboratory centrifuge that uses sample tubes, the radial acceleration (rotating) causes denser particles to settle in the bottom of the tube, while low-density particles rise to the top.

Thermo Scientific IEC MB Microhematocrit Centrifuge

I know nothing about the device, but it reads like you forced the door into a wedged position and it's stuck there. I would gently pry at it to get it past the "wedge", then study the mechanism to see whether the actual latch is broken, or just out of position. Please click the Comment link to respond.
