I had work at a motor rewind shop in the 90's. Just to rewind a simple 3 phase motor with no machine work was \$300. I'm talking 5hp or less. A factory can kick out a motor winding in minutes when making hundreds. But a one off repair takes hours. I don't miss the stress of trying to get customers motor repaired in a timely manner.

### **Electric Motor Repair: Robert Rosenberg, John Rosenberg ...**

An electric motor is an electrical machine that converts electrical energy into mechanical energy. Most electric motors operate through the interaction between the motor's magnetic field and electric current in a wire winding to generate force in the form of rotation of a shaft. Electric motors can be powered by direct current (DC) sources, such as from batteries, motor vehicles or rectifiers ...
