Target costing is a method of determining the cost of a product or service based on the price that customers are willing to pay. In essence, target costing is price driven. Once the target price is determined, the cost is calculated by subtracting desired profit from price. The remainder is the target cost.

CHAPTER 20

There would be an increase of \$400,000 ($\$40 \times 10,000$) of overhead assigned to the deluxe speakers and so profitability for this product line would decrease by this amount. Overhead assignments affect product cost and profitability and thus can affect many decisions (e.g., pricing).
