ESworkbooks©2008cdunbar 1. Place a scrap paper on the left side of the chart 2. Mark the zero

and the arrival time difference on the paper 3. Keep the paper vertical and move it to the right until the top mark is touching the S-wave line and the zero mark is touching the P-wave 4. Follow the paper down and read the chart to determine the distance

Properties of Earth's Interior

have played an important part in Earth's history. These forces shaped our planet long-ago and what we see today is the result. The law of uniformitarianism states that the present is the key to the past. Perhaps by studying the past we can protect our future. There are two main categories for geologic time, relative time and absolute time.

Earth's History Packet 6 - eat, sleep, breathe science

Earth's Dimensions INQUIRY PACKET 2 . Your Name Group Members . Major Understandings: 1.1c Earth's coordinate system of latitude and longitude, with the equator and prime meridian as reference lines, is based upon Earth's rotation and our observation of the Sun and stars.
