Engine Codes At times a vehicle manufacturer may use engines of the same size, be it in liters or cubic inches, in a particular year, make, and model vehicle. In these cases there is a need to further identify which engine has been installed. In most cars and light trucks, this is done as part of the VIN (Vehicle Identification Number) but in some

Engine VIN Codes - Amsoil

This big block does have the engine V.I.N. code stamped to the right of the engine ID number. This code was added at the final vehicle assembly plant. Since the engine codes were stamped on a pad that is an extension of the deck surface, it is possible to remove the codes and identification numbers.

Engine Codes : Drivin' It Home
