Engineering Wow

Engineering is one of WoW's more interesting crafting professions - it requires materials produced with another profession, usually Mining. Engineers turn various reagents (most parts and metals) into fun and useful gadgets, vanity items (like mounts and pets), and even some epic helms/goggles, ranged weapons and scopes for them.

Engineering is a primary crafting profession that can create many useful, unique and amazing items, as well as junk (but often explosive junk!). Engineers can create helpful items for generally all classes to be used in PvE or PvP. To counterbalance this usefulness, most items crafted by engineering require engineering skill to use, and many of these items come with a chance for unexpected ...

Engineers take advantage of their inventiveness to create an immense (and occasionally random) variety of helpful items. By tinkering ceaselessly, and tolerating malfunctions and misfires, an engineer can make utterly unique objects: sight-enhancing goggles, potent guns, robot pets, mechanical mounts, and even more unusual trinkets. Successful engineers use their inventions to solve problems ...
