Rated 4 out of 5 by AndyI73 from Great Value for Money This new model replaces my 15 year old Westinghouse chest freezer The new rectangular shape (not as deep to reach the bottom)and the included basket make it much more user friendly and organised. The only feature I miss is the divider that the older model had in the bottom section where the step for the refrigeration unit is.

A refrigerator (colloquially fridge) consists of a thermally insulated compartment and a heat pump (mechanical, electronic or chemical) that transfers heat from the inside of the fridge to its external environment so that the inside of the fridge is cooled to a temperature below the ambient temperature of the room. Refrigeration is an essential food storage technique in developed countries.
