CS 469 Introduction to Database Design and Implementation ...

Structural independence exists when you can change the file structure without affecting the application's ability to access the data. It matters because if it doesn't exist (or is structural dependent) any change to a file's structure (i.e. adding a new field) would require a program to (1) read a record from the original file (2) transform the original data to conform to the new structure's ...
