Reply Nick November 15, 2008 at 9:23 pm. I am looking for a wiring diagram of the stock radio on the 2008 Ford Focus S model. I want to hook up an amp and sub, and I know I need to use a line output converter, but I need to find out what wires to use for the rear left and right (positive and negative) and the accessory turn on lead.

The power converter is an essential component in an RV's electrical system. Typically, coaches have two essentially separate electrical systems; one that provides 120 volts AC to high-power consumption, high-wattage appliances such as coffee makers, microwave ovens, hair dryers, air conditioners, etc.
