An engineering drawing, a type of technical drawing, is used to fully and clearly define requirements for engineered items.. Engineering drawing (the activity) produces engineering drawings (the documents). More than merely the drawing of pictures, it is also a language—a graphical language that communicates ideas and information from one mind to another.

Computer-aided design (CAD) is the use of computers (or workstations) to aid in the creation, modification, analysis, or optimization of a design. CAD software is used to increase the productivity of the designer, improve the quality of design, improve communications through documentation, and to create a database for manufacturing. CAD output is often in the form of electronic files for print ...

We expect a lot from modern pocket knives, like supersteel blades, grippy Micarta or G-10 scales, sturdy blade locks, discreet carry and instant one-hand opening. Oh yeah: they also need eye-catching good looks. The Camillus 'Demo' knife is not a modern pocket knife. If it were a person (or a corporation, after the Citizens United decision) [...]
