cost engineering. At Cost Engineering we therefore promote that companies should make a step in bringing the estimating and project controls departments closer together, as opposed to two different departments each with their own different views and tools. We also see that projects are driven by cashflow.

**COST ESTIMATING AND PROJECT CONTROLS - Cost engineering**

Engineering Costs. A direct labor marginal cost of \$2.50 to produce one additional production unit is an example marginal cost. The average cost is the total cost of an output or activity divided by the total output or activity in units. If the total direct cost of producing 400,000 is \$3.2 million, then the average total direct cost per unit is \$8.00.
