I am not sure where you are in your physiology course right now. Send me an email at DrReece@MedicalScienceNavigator.com and we can discuss where you are having specific problems more fully. In general, physiology is regulated by 3 master control systems that interact with each other – the nervous system, the cardiovascular system and the endocrine system.

10 Tips for How to Learn Anatomy & Physiology

These tools were developed, as part of project 4656, to allow utilities to (1) assess their readiness to apply the road map, (2) initiate risk unitization, and (3) determine the cost-effectiveness of condition assessment in relation to specific risks.
