For more than 60 years, people who demand performance, durability and reliability have trusted Cummins agricultural engines, and with good reason. Cummins agricultural engines offer a number of advantages over competitors.

Diesel and Natural Gas Engines | Cummins Inc.

The VP44 pump used on Cummins engines in '98.5-later Dodges is an electronically controlled rotary pump. It uses a timing advance mechanism that is similar to that of the VE pump, but it's controlled by a solenoid. This gives us the capability of varying timing throughout the engine operating speed range (roughly 700-3600 RPM in a Dodge).
