Found and engine out of a Hyster Forklift,but it is propane at this time. Would this swap into and  
SA200. What I should say is will it run the same. I know it should fit but don't know it it would have  
a different Cam or other parts. Didn't know it the forklifts engines are designed to run at a different  
RPM or Torque range. I also believe this one has the distributor up top.
