Rough Cost Estimates. Aside from the cost of the actual engine, you also have to factor in the cost of the labor. In most cases, the hourly rate of local mechanics will be anywhere from \$50 to \$100. In most cases, the replacement of a new engine will take up to 20 hours to complete, depending on the extent of the job.

**Engine replacement & Engine Swap Cost: Here's What You ...**

An engine swap is a cheaper alternative for repairing or modifying your current car versus purchasing an entirely new car. The idea is to increase your cars horsepower and gain a larger, more powerful engine without the need of purchasing a new frame.

**How Much Does an Engine Swap Cost - howmuchitcost.com**

The cost will vary by shop as each shop has a different labor rate per hour. If you know what the labor rate of a shop is you can go with the average labor time of 8 hours to replace the engine in your truck to get close to the cost estimate.
