Technology drives efficiency in organization and increases the productivity. Lets understand how the usage of technology in operations management has been advantageous to the organizations.

### **Managing Technology in Operations Management**

In economics, competition is a condition where different economic firms seek to obtain a share of a limited good by varying the elements of the marketing mix: price, product, promotion and place. In classical economic thought, competition causes commercial firms to develop new products, services and technologies, which would give consumers greater selection and better products.
