Emacs Manual

Emacs / ' i: m æ k s / or EMACS (Editor MACroS) is a family of text editors that are characterized by their extensibility. The manual for the most widely used variant, GNU Emacs, describes it as "the extensible, customizable, self-documenting, real-time display editor". Development of the first Emacs began in the mid-1970s, and work on its direct descendant, GNU Emacs, continues actively as ...

Emacs - Wikipedia

Emacs is a highly extensible text editor.It is built on a C core, and provides a fully featured Lisp environment (the language from which the Gods wrought the universe).. There's a reason why Emacs was featured in Tron Legacy - because it's sexy! You can use Emacs for all of your text processing needs, internet and social network interactions, hacking, coding, managing to-do's and organizing ...

Emacs Speaks Statistics (ESS) provides an intelligent, consistent interface between the user and the software. ESS interfaces with R, SAS, S-PLUS, BUGS/JAGS and other statistical analysis packages on GNU/Linux, other Unix-like systems such as macOS, and Microsoft Windows.

ESS - Emacs Speaks Statistics

Emacs Lisp is a dialect of the Lisp programming language used as a scripting language by Emacs (a text editor family most commonly associated with GNU Emacs and XEmacs).It is used for implementing most of the editing functionality built into Emacs, the remainder being written in C, as is the Lisp interpreter.Emacs Lisp is also termed Elisp, although there is also an older, unrelated Lisp ...

Emacs Lisp - Wikipedia

Tern consists of several components. Depending on what you are trying to do with it, you will be interested in a different layer. At the very top are the editor plugins.These talk to a Tern server, which is implemented on top of the server module, which uses the inference engine to do the actual type inference.

GNU Manuals Online. This table lists official GNU packages with links to their primary documentation, where available. When a package has several associated manuals, they are all listed. If a package has no specific manual online, the link just goes to the package's home page (which is also linked to explicitly).

GNU Manuals Online - GNU Project - Free Software Foundation

I keep a scratch.sql file in each project with some local vars in it that set the connection details, and then I send queries from there to the SQL repl. I mostly work with PostgreSQL, and am often optimising queries, so one thing I did was write a command that EXPLAINS the SQL query at point in a format suitable for the plan visualisation tool PEV.I'm an org-mode fan generally, but I tried ob ...
