I've landed on this page quite often when trying to watch video clips frame by frame. Having tried many of the suggestions, I'm still frustrated with the lack of availability or ease of use of such a feature, which I find indispensable in an analytic environment (I'm not trying to go frame by frame on Leia's slave costume).

Video players that have frame by frame playback feature ...

Social engineering, in the context of information security, refers to psychological manipulation of people into performing actions or divulging confidential information. This differs from social engineering within the social sciences, which does not contain the divulging of confidential information.

Social engineering (security) - Wikipedia

Covering the ancient world through the age of technology, this illustrated lecture by Eugen Weber presents a tapestry of political and social events woven with many strands — religion, industry, agriculture, demography, government, economics, and art.
