When To Replace Your Timing Belt. Every vehicle will differ, so be sure to check the recommended schedule for your car year and model. A good guideline to follow would be to replace your timing belt every 75,00 miles or 5 years, whichever comes first. Your timing belt is constructed of rubber and breaks down from heat and stress from running in the engine.

Timing Belt Replacement Cost Guide - Auto Service Costs

Learn how much an average remote starter costs and also some information to take into account when shopping for a remote starter or security system.

How Much Does a Remote Starter Cost? | Compustar

I recently helped my sister-in-law by replacing the leaking water pump in her 1998 Dodge Intrepid with the 2.7L engine. It's a terribly designed engine in that when the water pump shaft seal goes (as they are prone to do), the leak dumps coolant into the crankcase and fouls the oil.

Water Pump Replacement in a Chrysler 2.7L Engine

An internal combustion engine (ICE) is a heat engine where the combustion of a fuel occurs with an oxidizer (usually air) in a combustion chamber that is an integral part of the working fluid flow circuit. In an internal combustion engine, the expansion of the high-temperature and high-pressure gases produced by combustion applies direct force to some component of the engine.

Internal combustion engine - Wikipedia
