An engineering drawing, a type of technical drawing, is used to fully and clearly define requirements for engineered items.. Engineering drawing (the activity) produces engineering drawings (the documents). More than merely the drawing of pictures, it is also a language—a graphical language that communicates ideas and information from one mind to another.

### **Engineering drawing - Wikipedia**

Detail drawings seldom describe the intent of an engineering design. An engineering design is usually defined by many individual detail drawings which combine to form an assembly drawing. The name and or drawing number of the assembly drawing in which the detail drawing is “called up” or “used on” is stated in the title block.
