Tanner Designer is an analog verification management tool that tracks all simulations for a project.

The tool displays simulation results in a convenient dashboard allowing the team to quickly see which blocks pass or fail specifications and to monitor verification progress.

Tanner Designer - Mentor Graphics

A virtual learning environment (VLE) is a system that creates an environment designed to facilitate teachers' management of educational courses for their students, especially a system using computer hardware and software, which involves distance learning. In North America, a virtual learning environment is often referred to as a "learning management system" (LMS).
