Aircraft Technical Data & Specifications. Welcome to our extensive Aircraft Data and History section. In cooperation with Aerospace Publications we are proud to present the largest and most detailed aircraft information database on the Internet. 388 civil aircraft in use or under

development are currently included with many more to come.

Aircraft Technical Data & Specifications - Airlines.net

An engine or motor is a machine designed to convert one form of energy into mechanical energy. Heat engines, like the internal combustion engine, burn a fuel to create heat which is then used to do work. Electric motors convert electrical energy into mechanical motion, pneumatic motors use compressed air, and clockwork motors in wind-up toys use elastic energy.
