This is a list of automobile engines developed and sold by the Suzuki Motor Corporation. Suzuki is unusual in never having made a pushrod automobile engine, and in having depended on two-strokes for longer than most. Their first four-stroke engine was the SOHC F8A, which appeared in 1977. Suzuki continued to offer a two-stroke engine in an automotive application for a considerably longer time ...

The Suzuki SJ410 Engine ( F10A ) subassembly is a direct fit to the ST90 F8A provided the head and sump is kept. There is also a water flange which is required from the F10A however this could be fixed some other way ( Not Tested ). These engines appear to be going around for between R2500 and R5000 and takes a few hours to fit.
