Rated 3 out of 5 by RickT from Auto-steer is a problem This would be a good snow blower except for the auto-steer. The differential causes the unit to jerk from side to side whenever it meets uneven resistance. For example, if one side of the unit hits a tire track the differential disengages one wheel and the unit pulls off a straight line.

Bias based on handedness is bias or design that is usually unfavorable against people who are left-handed. Part of this is due to design in the world which is often right-hand biased. Handwriting is one of the biggest sources of actual disadvantage for left-handed people, other than for those

forced to work with certain machinery.
