**Engineering Lawyer**

Engineering law. Jump to navigation Jump to search. Engineering law (or law in engineering) is the empirical study of the application of laws and legal strategy in engineering. Applied law aims to explain how law interacts with industry. The current school of thought within the academic community of lawyers and engineers is the pragmatic paradigm.

**Engineering law - Wikipedia**

Engineer X comes to you with a design, you as the IP lawyer with the engineering background goes, "hmm.. interesting design, I wish I could have come up with that." Then you spend hours sitting at your desk writing up a patent with all the technical and legal mumbo jumbo.

**Can a law degree greatly help an Engineer? | Physics Forums**

Engineering (or any hard science) and law can be a powerful combination. The communications skills developed in law school can be a great complement to the quantitative skills developed in your engineering training. The framework for analyzing legal cases is also largely similar to scientific problem solving techniques.

How to Apply to Law School as an Engineer or Scientist A STEM background can set you apart from other applicants if you present it correctly. By Shawn P. O'Connor , Contributor May 7, 2012

**How to Apply to Law School as an Engineer or Scientist ...**

A number of engineers go to law school afterwards, aiming at going into intellectual property law or another technically associated field such as construction law or environmental law. Other engineers take an MBA because they want to move more into business - either a business career in engineering or in some other type of business.

**Does it make sense to go from engineering to law school ...**

Japan's law profession and its system of legal education changed little for decades, even as the population and economy boomed. The bar, together with the Ministry of Justice and the nation's supreme court, kept a tight lid on the number of lawyers by maintaining a withering failure rate of 97 or 98 percent for the entrance exam.

**Engineering Lawyers - Harvard Law Today**

"In engineering there's a right or wrong answer but in law school you learn that most cases are not a right or wrong answer but picking an answer and supporting it (with evidence)." David Cornwell, also an intellectual property lawyer, is actually in a firm with several employees who are both lawyers and mechanical engineers.

**The Legal Advantage - ASME**

You will make a lot more money! But I think you should get some experience first in engineering before you go to law school (to make you a better patent lawyer) because you obviously don't want an engineering job after you finish law school. OR just go straight to law school because you will be patenting stuff that is not in your field anyway.
