Background. Clinical documentation systems, such as templates, have been associated with process utilization. The T-System emergency department (ED) templates are widely used but lacking are analyses of the templates association with processes.

### **Emergency department documentation templates: variability ...**

An emergency room note is a letter from a doctor that says you are ill and under the observation. It is widely used by many of the employees to fake a sickness. The best thing about the emergency room doctor's note is that the legislation does not allow employers to investigate it. So, you don't have to reveal much about your illness.
