We offer eDiscovery, cybersecurity, information security, information governance, and computer forensics services to corporations, government entities, and law firms. Solve your technology challenges with Nextra Solutions.

Nextra Solutions - Technology Solutions for Legal Challenges

"In Module 4, students use similar triangles learned in Module 3 to explain why the slope of a line is well-defined. Students learn the connection between proportional relationships, lines, and linear equations as they develop ways to represent a line by different equations ($y = mx + b$, $y - y_1 = m(x - x_1)$),

etc.). They analyze and solve linear equations and pairs of simultaneous linear equations.
