### **Five Best TV Tuner Cards - Lifehacker**

In order to view a specific TV channel, your television or computer needs to tune into the channel, separating its signal from the data of all the other channels. This requires a TV tuner, which can either come built into a TV or computer -- an internal tuner -- or as a separate device, called an external tuner. Cable ...

### **What Is an External Tuner? | It Still Works**

An external tuner, as far as video is concerned, is a television tuner (or receiver) in a set-top box or other device. A television can't be called a TV unless it has a built-in tuner, otherwise it is called a Monitor.To display TV on a monitor you need an external tuner, such as one found in a set-top box or VCR or video capture device.

### **What is an external tuner? - Quora**

Neither of these requires a tuner, so you shouldn't notice any differences in setup from your current TV. If you use an external antenna to watch free local channels, you will need a separate tuner adapter to connect your antenna to the display. All VIZIO SmartCast™ 4K Ultra HD displays are tuner-free.
