Levi: Comments: Hi, I just finished putting plugs,air filter,and cabin filter in my E90 328i 2011 BMW.Mine is not an Xdrive model but still the N52 engine placement. My car has 97K on it right now. Where do I find the drain plug ? on mine and where is the best place to Jack it up since it's all covered underneath with plastic.

Changing Your BMW Motor Oil and Filter - Pelican Parts

2002 Ford Ranger. First of all, before I got an oil change, and yes the car had oil in it before. When I would first start the car, engine sounded smooth and okay, but after awhile my engine would make knocking/ticking sounds when first accelerating and then for a second or two after I took the foot off the accelerator.

5 Causes of Engine Ticking Noise in Your Car (When ...

An internal combustion engine (ICE) is a heat engine where the combustion of a fuel occurs with an oxidizer (usually air) in a combustion chamber that is an integral part of the working fluid flow circuit. In an internal combustion engine, the expansion of the high-temperature and high-pressure gases produced by combustion applies direct force to some component of the engine.

Internal combustion engine - Wikipedia

Tip. If the engine has a choke, turn the choke off as soon as the engine turns over. If your lawnmower has an electric starter, charge the battery before trying to start it.
