I'm specifically interested in problem sets in Real Analysis that have solutions. I have a few books on it, but I'd like to compare my solutions with some given answers in a lot of cases to ensure that I've mastered the material as much as possible. I've searched Real Analysis books on this site, and came up with this question.

Homework . Homework will be assigned weekly and a hard copy will be due in class on Friday.

Please write clearly, or type, and staple your solutions. If you want to type good-looking mathematics, the standard tool is LaTeX, or one of its many variants, and this would be as good a time as any to learn how to use it.
