D600 'Warship' class introduction. From the day they were ordered, the D600 'Warship' class were the locomotives the Western Region did not want. The WR required lightweight diesel - hydraulic engines of the German design, similar to the Krauss-Maffei V200 locomotives, whereas the British Transport Commission ordered this heavyweight class of 5 to be built on diesel - electric principles.

The British Railways Class 41 diesel-hydraulic locomotives were built by the North British Locomotive Company in Glasgow during 1957 and 1958. Although they were withdrawn before TOPS was introduced, British Rail classified them as Class 41. All were named after Royal Navy vessels, hence the nameplates each bore a subtitle "Warship Class".
