A circuit breaker is an automatically operated electrical switch designed to protect an electrical circuit from damage caused by excess current from an overload or short circuit. Its basic function is to interrupt current flow after a fault is detected. Unlike a fuse, which operates once and then must be replaced, a circuit breaker can be reset (either manually or automatically) to resume ...

Like most people i am cautious of purchasing any thing over the internet. The main reason I purchased this item is because I am getting tired of packing one around my shoulder. When it arrived i unpacked it with the hope of putting it together and just looking at it. That all went great until it was time to install the tires, one tire was laying in the box but where was the other one?

African catfish are mentioned within traditional capture-based aquaculture (known as wheddos in Benin and Ghana and barochois in Mauritius) for centuries. Their culture in modern times follows a similar trend to that of tilapias: first domestication trials by the year 1950 and adoption of the North African catfish *Clarias gariepinus* as the most desirable catfish for aquaculture in the mid 1970s.
