Engine Weight Honda K20

The Honda K-series engine is a line of four-cylinder four-stroke car engine introduced in 2001. The K-series engines are equipped with DOHC valvetrains and use roller rockers to reduce friction. The engines use a coil-on-plug, distributorless ignition system with a coil for each spark plug. This system forgoes the use of a conventional distributor-based ignition timing system in favor of a ...

Honda K engine - Wikipedia

I have a 99 Civic Si (Canadian version), a 5 speed mated to a D16 engine. I talk to a local Honda tuner in my area about engine swaps. I asked about about dropping a K24A2, but he said to go with a B18C because it's a straight drop and everything will work 100%.
