#### **Environmental Engineering**

Environmental engineers design systems for managing and cleaning municipal water supplies. Environmental engineers use the principles of engineering, soil science, biology, and chemistry to develop solutions to environmental problems. They work to improve recycling, waste disposal, public health, and water and air pollution control.

#### **Environmental Engineers: Occupational Outlook Handbook...**

Environmental engineering system is the branch of engineering concerned with the application of scientific and engineering principles for protection of human populations from the effects of adverse environmental factors; protection of environments, both local and global, from potentially deleterious effects of natural and human activities: and ...

### **Environmental engineering - Wikipedia**

Environmental engineering is the branch of engineering that is concerned with protecting people from the effects of adverse environmental effects, such as pollution, as well as improving environmental quality. Environmental engineers work to improve recycling, waste disposal, public health....

#### What Is Environmental Engineering? - Live Science

Environmental engineers will need at least a bachelor's degree in civil, chemical, environmental or general engineering. Environmental engineering is a relatively new discipline. Wittliff, who earned a bachelor's degree in mechanical engineering in 1972, says,...

#### Environmental Engineer - Career Rankings, Salary, Reviews ...

Environmental engineering is the branch of engineering that focuses on protecting the environment by reducing waste and pollution. The field is also dedicated to improving environmental conditions through remediation. It deals with the design of technologies and processes that control pollution releases and clean up existing contamination.

## How to Become an Environmental Engineer ...

Pay by Experience Level for Environmental Engineer. An Environmental Engineer with mid-career experience which includes employees with 5 to 10 years of experience can expect to earn an average total compensation of \$71,000 based on 407 salaries. An experienced Environmental Engineer which includes employees with 10 to 20 years...
