In 2018, Amazon announced it would institute a lifetime-ban for "serial returners", shoppers who have a habit of returning most of their purchases. 61% of retailers said they would do the same if they had the means to better track returns and "serial returners".

10 eCommerce Trends for 2019 - Presented by Absolunet
Here's why this is super-important: Almost all ecommerce stores feature many forms which collect personal details from users. So it's good practice to make sure ALL information is encrypted (not just credit card details).. Google has also confirmed that there is a (slight) rankings boost for sites serving content over HTTPs. That's one more reason to do this.
